INITIAL DISCLAIMER

Dessert Finance provides due-diligence project audits for various projects. Dessert Finance in no way guarantees that a project will not remove liquidity, sell off team supply, or otherwise exit scam.

Dessert Finance does the legwork and provides public information about the project in an easy-to-understand format for the common person.

Agreeing to an audit in no way guarantees that a team will not remove ***all*** liquidity (“Rug Pull”), remove liquidity slowly, sell off tokens, quit the project, or completely exit scam. There is also no way to prevent private sale holders from selling off their tokens. It is ultimately your responsibility to read through all documentation, social media posts, and contract code of each individual project to draw your own conclusions and set your own risk tolerance.

Dessert Finance in no way takes responsibility for any losses, nor does Dessert Finance encourage any speculative investments. The information provided in this audit is for information purposes only and should not be considered investment advice. Dessert Finance does not endorse, recommend, support, or suggest any projects that have been audited. An audit is an informational report based on our findings, We recommend you do your own research, we will never endorse any project to invest in.

BEP-20 Contract Code Audit – Additional Overview

Dessert Finance was commissioned to perform an audit on Gold USD (USDG)

Contract Address

0x5b6d884174853f2c2d1a98b406c3b44f411d3cbc

Blacklist Function

Not Found

Whitelist Function

Not Found

Sell Conditions

Not Found

Fees

Not Found

Pause Function

Not Found

Hidden Transfer Function

Not Found, team is only able to access funds sent directly to the contract

Is the contract a proxy

This contract is not a proxy contract and not upgradeable

Contract Defined Supply

50,000,000,000USDG with no minting

Contract Name

USDG

Based on the above findings, the USDG Gold BSC contract does not contain honeypot logic, sell-blocking logic, blacklist restrictions, whitelist restrictions, pause functions, tax/fee mechanisms, hidden transfer restrictions, proxy/upgradeable patterns, or malicious owner-controlled mechanisms in the code.

The contract code is **verified** on BSCScan.

BEP-20 Contract Code Audit – Vulnerabilities Checked

Vulnerability Tested	AI Scan	Human Review	Result
Compiler Errors	Complete	Complete	✓ Low Risk
Outdated Compiler Version	Complete	Complete	✓ Low Risk
Integer Overflow	Complete	Complete	✓ Low Risk
Integer Underflow	Complete	Complete	✓ Low Risk
Correct Token Standards Implementation	Complete	Complete	✓ Low Risk
Timestamp Dependency for Crucial Functions	Complete	Complete	✓ Low Risk
Exposed _Transfer Function	Complete	Complete	✓ Low Risk
Transaction-Ordering Dependency	Complete	Complete	✓ Low Risk
Unchecked Call Return Variable	Complete	Complete	✓ Low Risk
Use of Deprecated Functions	Complete	Complete	✓ Low Risk
Unprotected SELFDESTRUCT Instruction	Complete	Complete	✓ Low Risk
State Variable Default Visibility	Complete	Complete	✓ Low Risk
Deployer Can Access User Funds	Complete	Complete	✓ Low Risk

The contract code is **verified** on BSCScan.

The vulnerabilities listed above were not found in the token's Smart Contract.

Contract Code Audit – Owner Accessible Functions

Function Name	Parameters	Visibility	Audit Notes
transferOwnership	address newOwner	public	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
renounceOwnership		public	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
recoverERC20	address token, address to, uint256 value	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
recoverAllERC20	address token, address to	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
recoverETH	address payable to, uint256 value	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.
recoverAllETH	address payable to	external	onlyOwner modifier is detected. Owner can call this function if the contract is not renounced.

The above functions can no longer be called as of block 96914889 when ownership was renounced.

The functions listed above can be called by the contract owner.

If contract ownership has been renounced there is no way for the above listed functions to be called.

Liquidity Ownership – Locked / Unlocked

No locked liquidity information has been found.

This page will contain links to locked liquidity for the project if we are able to locate that information. Locked liquidity information was not found on the project's website.

Contract Code Audit – Mint Functions

This Contract Cannot Mint New USDG Tokens.

We do understand that sometimes mint functions are essential to the functionality of the project.

A mint function was not found in the contract code.

Contract Transaction Fees

At the time of Audit the transaction fees (“tax”) listed below are the fees associated with trading. These fees are taken from every buy and sell transaction unless otherwise stated.

No transaction fees found. Gas fees still apply to this contract.

Website Part 1 – Overview

www.usdgdefi.com

Above images are actual snapshots of the current live website of the project.

Website was registered on 09/29/2025, registration expires 09/29/2026.

X This does not meet the 3 year minimum we like to see on new projects.

Website Part 2 – Checklist

- ✓ Mobile Friendly
- ✓ No JavaScript Errors
- ✓ Spell Check
- ✓ SSL Certificate

The website contained no major JavaScript errors. No typos, or grammatical errors were present, and we found a valid SSL certificate allowing for access via https.

No additional issues were found on the website.

Website Part 3 – Responsive HTML5 & CSS3

No issues were found on the Mobile Friendly check for the website. All elements loaded properly and browser resize was not an issue. The team has put a considerable amount of thought and effort into making sure their website looks great on all screens.

No severe JavaScript errors were found. No issues with loading elements, code, or stylesheets.

Website Part 4 (GWS) – General Web Security

SSL CERTIFICATE

A valid SSL certificate was found. Details are as follows:

Offered to: usdgdefi.com

Issued by: R13

Valid Until: May 2026

CONTACT EMAIL

A valid contact email was found on the official website. Contact email is listed as shown below:

Contact

support@usdgdefi.com

SPAM / MALWARE / POPUPS

No malware found

No injected spam found

No internal server errors

No popups found

Domain is marked clean by Google, McAfee, Sucuri Labs, & ESET

Social Media

We were able to locate a variety of Social Media networks for the project.

All links have been conveniently placed below.

[Twitter](#)

[Telegram](#)

[GitHub](#)

✓ At least 3 social media networks were found.

Top Token Holders

The entire supply was in one wallet at the time of audit. We expect this to change as the project goes through initial distribution phases. Please use the link below to view the most up-to-date holder information.

[Click here to view the most up-to-date list of holders](#)

Location Audit

A team member of the project has identified his location as Armenia

Team Overview

The team coordinator/operations manager for USDG has provided Dessert Finance an Armenian Passport. He helps coordinate communication between the project leadership, technical contributors, and community operations.

He is not presented as the sole founder or sole developer. He is a responsible representative authorized to complete identity and project verification on behalf of the USDG Gold team.

This person is reading a script provided by Dessert Finance mentioning that they are an official representative of the project and showing their passport to the camera.

This person has shown their passport on the video along with showing a phone appearing to have the entire supply of USDG tokens shortly after deployment.

Please note that Dessert Finance requests this video and a passport but this does not guarantee the safety against malicious actors. Verifications in non English speaking countries are generally coached by an English speaker.

Roadmap

A roadmap was found on the official website, we have conveniently placed it on this page for your viewing. Full roadmap on project site.

Disclaimer

The opinions expressed in this document are for general informational purposes only and are **not intended to provide specific advice or recommendations for any individual or on any specific investment**. It is only intended to provide education and public knowledge regarding projects. This audit is only applied to the type of auditing specified in this report and the scope of given in the results. Other unknown security vulnerabilities are beyond responsibility. Dessert Finance only issues this report based on the attacks or vulnerabilities that already existed or occurred before the issuance of this report. For the emergence of new attacks or vulnerabilities that exist or occur in the future, Dessert Finance lacks the capability to judge its possible impact on the security status of smart contracts, thus taking no responsibility for them. The smart contract analysis and other contents of this report are based solely on the documents and materials that the contract provider has provided to Dessert Finance or was publicly available before the issuance of this report (issuance of report recorded via block number on cover page), if the documents and materials provided by the contract provider are missing, tampered, deleted, concealed or reflected in a situation that is inconsistent with the actual situation, or if the documents and materials provided are changed after the issuance of this report, Dessert Finance assumes no responsibility for the resulting loss or adverse effects. Due to the technical limitations of any organization, this report conducted by Dessert Finance still has the possibility that the entire risk cannot be completely detected. Dessert Finance disclaims any liability for the resulting losses.

Dessert Finance provides no guarantees against the sale of team tokens or the removal of liquidity by the project audited in this document. Even projects with a low risk score have been known to pull liquidity, sell all team tokens, or exit-scam. Please exercise caution when dealing with any cryptocurrency related platforms.

The final interpretation of this statement belongs to Dessert Finance.

Dessert Finance highly advises against using cryptocurrencies as speculative investments and they should be used solely for the utility they aim to provide.

Thank You
